Bullseye HEPA Vacuums
Simultaneous Dry & Wet Pick-Up

Bullseye Vacs are high capacity, wet and dry industrial vacuum cleaners designed to maximize your cleaning performance and minimize contact with collected dust. Features include a large settling chamber for extended filter life and 3-stage filtration, with fast and easy maintenance.

Bullseye Vacs provide simultaneous wet and dry pickup with automatic high liquid shutoff. The HEPA Filter combined with the sanitary dust handling system make the Bullseye HEPA Vac the choice for high value and hazardous materials.

3-Stage Filtration

Paper Bag Prefilter
Pleated Cartridge Dust Collector Filter
HEPA Filter
Minimum efficiency of 99.97% at 0.3 microns

All Bullseye HEPA Vacs are tested for bypass leakage in accordance with the methods and procedures contained in Brookhaven National Laboratory Standard IH62350 “HEPA Filter Vacuum Cleaner Testing.” Copy available on request.
